

The City of Clyde will begin spraying for mosquitoes at early dusk beginning Tuesday, June 6, 2017 and every Tuesday evening at dusk thereafter through Tuesday, September 26, 2017. Additional spraying will be done on Thursday evening July 6, 2017 and Thursday morning September 14, 2017 before the Clyde Fair. There will be no spraying when the weather is bad (i.e. rain, wind, or storms). To ensure maximum coverage and benefit to all areas being sprayed, the City of Clyde requests that all pedestrians, joggers, and children at play vacate from the area being sprayed for at least fifteen (15) minutes. Persons with any respiratory problems and small children are advised to stay indoors while spraying is being done.

Spray dates:

June 6, 13, 20, 27

July 11, 18, 25 + Thursday, July 6

August 1, 8, 15, 22, 29

September 5, 12, 19, 26 + Thursday, September 14
